

**РУССКИЙ ЯЗЫК**  
**Результаты оценки профессиональных компетенций**  
**учителей русского языка**  
**2021 г.**

Оценку профессиональных компетенций по русскому языку проходили 295 учителей из 44 муниципальных образований края. Полученные результаты представлены в таблице 1.

По уровням общее количество участников распределилось следующим образом: 1 уровень (минимальный) - 17 человек

2 уровень (низкий) - 65 человек

3 уровень (средний) - 206 человек

4 уровень (высокий) - 7 человек

Таким образом среди участников - учителей русского языка большая часть (213 человек) показали высокий и средний уровни профессиональных компетенций. 82 человека - минимальный и низкий уровни.

Участники с высоким результатом оценки показали достаточно высокий уровень (71 - 100%) выполнения всех заданий.

Участники со средним результатом оценки (206 человек) показали знание предмета на среднем уровне (60% выполнение заданий предметного блока). Задания методического блока выполнены данными участниками от 38 до 72%. На самом низком уровне (всего 38%) результаты выполнения задания 5 (отбор учебного материала для двух классов с разными уровнями подготовки и раскрыть принципы отбора), задания 6 (планирование результатов учебной деятельности и знание методик и технологий, применение которых обеспечивает достижение планируемых результатов). Задание 4 (подбор заданий/упражнений на основе параграфа учебника для разных этапов урока в двух классах с разными уровнями подготовки) также выполнено на низком уровне (44%). Задания оценочного блока участниками этой группы выполнены в среднем на 70%.

Участники с низкими результатами, (65 человек), имеют низкий и очень низкий уровень выполнения всех заданий. Лишь задание 8 из оценочного блока (оценивание предложенных развернутых ответов обучающихся на основе стандартизованных критериев и анализ допущенных ошибок) выполнено на среднем уровне (66%).

Участники с очень низкими (минимальными) результатами (17 человек) только одно задание 8 выполнили на среднем уровне, остальные задания выполнили частично или не приступали к ним вовсе. Их профессиональная пригодность вызывает большие сомнения. Они показали низкий уровень как предметной так и методической подготовки (в среднем 14%)

Результаты по выявлению профессиональных дефицитов у выборки учителей русского языка Краснодарского края по результатам Оценки предметных и методических компетенций представлены в таблице 2.

Вывод:

По результатам Оценки предметных и методических компетенций в выборке учителей русского языка наблюдаются наиболее выраженные профессиональные дефициты по следующим позициям:

- отбор учебного материала, заданий/упражнений на основе параграфа для двух классов с разными уровнями подготовки и обоснование принципов отбора;
- планирование результатов учебной деятельности и знание методик и технологий, применение которых обеспечивает достижение планируемых результатов.

Таблица 2

**Профессиональные дефициты, выявленные в результате Оценки предметных  
и методических компетенций учителей русского языка  
2021 г.**

| № заданий | Уровень выполнения оценки |    |    |    |                   | Содержание заданий                                                                                                                                                                             |
|-----------|---------------------------|----|----|----|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | 4                         | 3  | 2  | 1  |                   |                                                                                                                                                                                                |
| 1         | 88                        | 61 | 45 | 16 | Предметный блок   | Работа с текстом: вставить пропущенные буквы и знаки препинания. Языковые разборы - фонетический, морфемный и словообразовательный, морфологический, синтаксический.                           |
| 2         | 71                        | 59 | 29 | 6  |                   | Развернутый ответ на поставленный в условии вопрос                                                                                                                                             |
| 3         | 100                       | 72 | 45 | 32 | Методический блок | Формирование последовательности изучения тем внутри раздела и обоснование предложенной последовательности                                                                                      |
| 4         | 88                        | 44 | 12 | 3  |                   | На основе параграфа учебника подбор заданий/упражнений для разных этапов урока в двух классах с разными уровнями подготовки                                                                    |
| 5         | 75                        | 38 | 16 | 10 |                   | Отбор учебного материала для двух классов с разными уровнями подготовки и раскрытие принципа отбора                                                                                            |
| 6         | 71                        | 40 | 17 | 16 |                   | Планирование результатов учебной деятельности и знание методик и технологий, применение которых обеспечивает достижение планируемых результатов                                                |
| 7         | 79                        | 60 | 28 | 6  | Оценочный блок    | Нахождение и квалификация ошибок в ответе обучающегося и планирование работы по предотвращению подобных ошибок                                                                                 |
| 8         | 100                       | 88 | 66 | 65 |                   | Оценивание предложенных развернутых ответов обучающихся на основе стандартизованных критериев и анализ допущенных ошибок                                                                       |
| 9         | 89                        | 63 | 29 | 24 |                   | Анализ результатов ВПР одного класса, выявление дефицитов в освоении учебного материала и формулировка методических рекомендаций для учителя, направленных на компенсацию выявленных дефицитов |
